Laba Migration Camp, the benchmark for safari

There's the setting, the Serengeti, grandiose and world-famous for The Great Migration. Then there are the guides, on whom the quality of a safari experience depends on and who will make a trip a success... or not. They are key members of our team, and it's on them that we've focused all our attention.

Rigorous recruitment and exceptional working conditions mean that today, Laba Migration Camp boasts some of **the most highly qualified safari guides in Tanzania**. It's not just us who say this, nor their impressive CVs, but the many testimonials we receive from our guests, many of whom are seasoned safari experts. Whether they're Head of guides, instructors or walking safari specialists, our guides have it all.

At Laba Migration Camp, as at all our Safari Lodges, our guests are provided with a private vehicle and guide to enable them to go at their own pace, according to their desires and interests. However, the walking safari is our must because it's a rare and emotionally intense experience that only highly experienced guides, like ours, can accompany with talent, in complete safety.

Multiplying talent is our goal today. The Laba Migration Camp has become a veritable training centre where our young recruits accompany our guides. So don't be surprised if you're greeted by a pair!

While Laba Migration Camp is described by professionals as the most luxurious mobile camp in the Serengeti, the high quality of our safaris is at the heart of the experience we offer our guests. Our guides represent a unique concentration of skills within a single camp, making Laba Migration Camp THE benchmark for safaris.

Extra activity included: Olduvai Gorge and Shifting Sands on private basis.

When the camp is in Southern Serengeti*, we offer our guests to explore the Olduvai Gorge, one of the most important paleo-anthropological sites on the planet, thanks to the discovery of a series of fossils that document the evolution of mankind. Second stage of the day, the mysterious Shifting Sands, a volcanic ash dune that moves across the desert at a rate of approximately 55 feet/ 17 meters each year.

* from December 10th, January, February, March (Airstrip Ndutu).

Optional extra activity not included*: Hot Air Balloon Safari

An unforgettable journey above the Serengeti over the migration herds (glass of bubbly & breakfast included). Pick-up/ Drop off at the Laba Migration Camp.

*Please refer to our rate-sheet. Pre booking required.
